PROFESSIONAL SUMMARY

Motivated Computer Science & Engineering graduate with proven team leadership, client operations, and process improvement experience. Experienced in cross-functional coordination, project delivery, and operational reporting. Seeking roles supporting international cooperation, trade facilitation, stakeholder engagement, and research-driven decision-making in a professional diplomatic environment.

EXPERIENCE

Foreign Communicator

Softvence Agency October 2025—Present, Dhaka, Bangladesh

- Conducted basic analysis of client interaction trends and service demand patterns, summarizing insights to support business development decisions.
- Assisted in coordinating meetings and follow-up communication between internal teams and external clients.
- Served as primary point of contact for 20+ foreign clients weekly, resolving inquiries and maintaining a 95% first-response satisfaction rating.
- Prepared structured client interaction reports used by account managers to identify upsell opportunities, contributing to a 10% increase in follow-up meetings.
- Coordinated with internal teams to close support tickets within SLA, reducing the escalation rate by ~20%.

External Playtester

Electronic Arts (EA Inc.) March 2024—Present, Remote

- Performed structured quality testing across multiple system builds, documenting reproducible issues and analytical notes adopted by QA teams.
- Created standardized issue reports that decreased duplicate bug submissions by ~40%, accelerating triage and fix cycles.
- Completed QA surveys and feedback cycles that influenced sprint prioritization, contributing to a 15% improvement in test coverage efficiency.

Store Manager (with IT responsibilities)

Vape Circle BD December 2019—March 2021, Dhaka, Bangladesh

- Managed daily store operations and a team of 4 staff, improving on-time opening and closing performance to 100% compliance.
- Designed and implemented a digital sales tracking sheet that reduced manual data errors by 25% and cut reporting time from 3 hours to 1 hour per day.
- Handled customer service across phone, chat, and in-store channels; resolved 90% of inquiries without escalation.
- Oversaw IT maintenance and troubleshooting for POS and e-commerce systems, ensuring <1% downtime during business hours.

PROJECT

High-Performance Distributed Web Scraper

Designed to collect and structure large volumes of web-based data for analysis and reporting use cases.

Multimodal Image Description App

Functional Python-based Multimodal AI application powered by Gemini.

Capstone Project: Online Examination System

Independent Online examination system.

Achievements

- **Victory Day Coding Competition UITS Computer Club Team member (algorithm & implementation)**
- **Guinness World Record Participant — Longest Moving Line of Bicycles (BD Cyclists) — Team coordination role**
- **Active Member: BD Cyclists**

EDUCATION

Bachelor of Science in Computer Science & Engineering

University of Information Technology & Sciences (UITS), Dhaka — B.Sc., CSE — 2024 | CGPA: 3.03

Relevant coursework: Business Analytics, Database Systems, Project Management, Data Structures | Led development of Online Examination System

SKILLS

Technical: Python, SQL Server, HTML, CSS, Entity Framework Core

IT & Tools: MS Office (Excel, PowerPoint), Desktop Support, IT Troubleshooting, POS systems

Business & Analysis: Stakeholder engagement, Research & reporting, Cross-cultural communication
